

4. South Yarra Residence

The style of furniture and overall room appeal was carefully designed with references to the architectural style of the home, whether linking to the external façade or internal detailing. The inspiration and references to vintage 1940's Italian designs injected a softer feel into this area. Curved furniture and round shapes brought a more feminine touch contrasting and complementing such stiff and squared space. The layering of multiple textures and finishes add to the Salon's charm resulting in a bespoke and curated interior. Multiple light sources add to the atmosphere, from glass wall sconces to art-lights, table and floor lamps and a striking chandelier. massimointeriors.com.au
