

bedroom

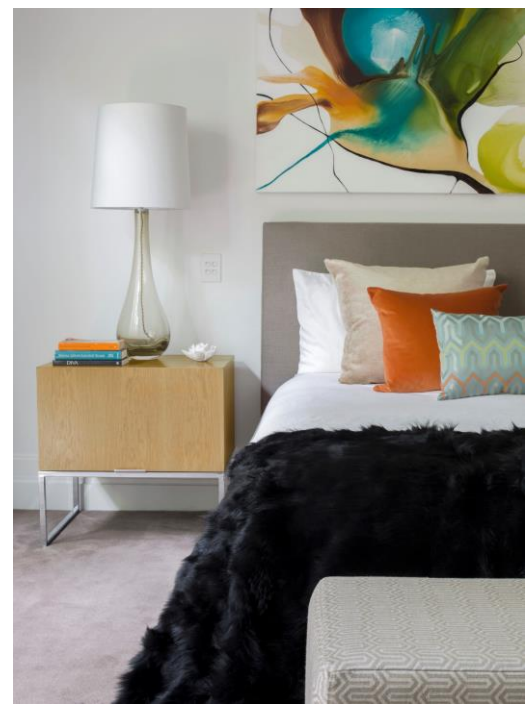

IDEAS

Melbourne

1. Toorak Residence

Bespoke masterpiece. This modern and glamorous bedroom is the perfect restful retreat with a level of class and sophistication. The artwork, hanging proud above the bed, is the hero injecting color into the space. The linen, bedhead and the American oak bedside tables create the perfect neutral background for the pop of color in the form of cushions and the occasional leather chair.

Malvern

4. Malvern Residence 2

This master bedroom is all about luxury, with its generous size and with old-Hollywood glamour atmosphere it is fit for a King or Queen. The color purple, associated with royalty, is a great choice for this room adding extravagance, contrast and vivacity. The luxe purple velvet upholstery used on the bed is echoed in the ceiling paint and balanced off in the rug with a geometric Greek Key motif. massimointeriors.com.au
